CALL TO ORDER:

VISITORS REPORT:
Lewisburg resident Christian Rogner approached Council asking how it would affect the Fire Department if the City lost water. He noted that a water leak outside his house made him think about water security issues concerning the City water supply. Mayor White thanked him for his concern.

E-Voting proposal from the Secretary of State office
Donald Kersey, lead counsel with the Secretary of State’s office explained they were hoping to have Lewisburg to serve as a pilot program for a new electronic ballot system that would only be available to overseas voters and voters with disabilities. Eligible voters could cast absentee ballots through an electronic application. Kersey stated that it would involve a financial cost but that there were grants available to help start this pilot program. However, Kersey noted that in order to implement, the City would have to enact an ordinance extending Lewisburg’s absentee ballot regulations to include an electronic option. City Manager Misty Hill stated that passing an ordinance would create a very tight timeframe with the upcoming June election and State requirements for having ballots available for mailing out absentee ballots. The second reading of an ordinance could not occur until the May City Council meeting. Mayor White and Council members indicated they did not feel comfortable rushing into anything of this magnitude with an upcoming election. Mayor White encouraged the Secretary of State’s office to get back in touch with Lewisburg after this election had been completed.
